Water Main Break on Route 50 East and Graham Road in the City

FALLS CHURCH, VA. – A 12-inch water main break at the intersection of Route 50 East and Graham Road and Wayne Road in Falls Church City. Water to that system was shut down at 11:00 a.m. this morning, affecting about 40 single-family homes primarily located in Westfalls Place. The City's Public Works Division expects that water will be restored to these homes at 5:00 p.m. this afternoon.

While Public Works crews are repairing the water main break, the center lane east bound on Route 50 will be closed to traffic, with one lane remaining open to allow traffic to flow towards the District.

Both the fire and police departments for the City as well as for Fairfax County have been notified.

More information will be provided on this water main break as it becomes available.
